

209,253 syphilis cases were reported in 2023 in the U.S.¹

THE HIGHEST NUMBER SINCE 1950.

Routine screening and rapid point-of-care testing are essential to STOP syphilis.²

Let's make screening simple.

Order Syphilis Health Check™ tests at [DiagnosticsDirect2U.com](https://www.diagnosticsdirect2u.com)

Who Should Be Screened for Syphilis?³

Routine screening is critical for early detection and effective care.
Key populations recommended for routine screening are:

- > **Sexually active individuals, including:**
 - Women of reproductive age (15-44)⁴
 - People living with HIV
 - People taking PrEP
 - Gay or bisexual men (MSM)
 - People in communities with high syphilis rates
- > **Pregnant people**
- > **Anyone with symptoms**
- > **Partners of recently diagnosed persons**

Why test with Syphilis Health Check™?

- ✓ Detects infections earlier⁵
- ✓ Results in 10 minutes
- ✓ CLIA-waived for easy integration⁶
